

## *Partnership Proposal*

KURANGA DIGITAL LTD

# ABOUT US

## KURANGA DIGITAL

KURANGA DIGITAL LTD is a 10 years old tech consulting firm, generally bridging skills gap and capacity building in finance, business, accounting and IT solutions with emphasis on advanced technology and research for the business environment to bring solutions corresponding to issues in the fields of education ,Health ,business administration and etc.

## MY PATHPRENEUR

MyPathpreneur program is specifically designed for passionate entrepreneurs aiming to strengthen their potential in managing business by equipping them with practical financial literacy and introducing innovative technology tools in finance (QuickBooks).

# PROBLEM WORTH SOLVING

Most businesses are created by passionate entrepreneurs who significantly lack financial and business management skills in their operations.

Thus businesses are unable to survive on the market on the long run even if those businesses are making good sales on a regular basis, simply because such entrepreneurs have insufficient modern skills to manage company's resources.

Give your career  
A real boost

## Vision

Increasing digital career readiness by developing 21<sup>st</sup> century skills through personal finance and entrepreneurship education.

---

## Mission

- Creating new opportunities,
  - Revitalizing communities,
  - Expanding possibilities through enhanced technology based skills.
-

# IMPACT TO ENTREPRENEURSHIP

In 10 years of operation, KURANGA DIGITAL Ltd has had a significant impact on the community through which the major focus is improve business operations & services using digital finance tools such as **QuickBooks**.

Kuranga Digital embarked on its role in bridging the gap in the labor market and education scheme then opened a training facility which improved labor market fit-tech skills in finance for students ,graduates to embark and grow existing startups. Partnering with you can be of a useful impact to both of us, your beneficiaries and the country. Adults learn better by participation practices with evidence, QuickBooks is all about that in the area of finance and accounting.

# CONCEPT IN BUSINESS

## Why QuickBooks?

QuickBooks is a professional accounting software combining all essential management features needed in business, such as Stock, Production, Payroll, Taxation, Budget, Accounting and Financial Reporting. QuickBooks provides the best user-friendly interface making it easier to use without any accounting skills but only basing on usual business terminologies and the cost is affordable.

## Beneficiaries

MyPathpreneur intends to empower young entrepreneurs, women-led businesses and SME's in hands-on financial skills by using QuickBooks.
