

Partnership Proposal

KURANGA DIGITAL LTD

ABOUT US

KURANGA DIGITAL LTD

KURANGA DIGITAL LTD is a 10 years old Tech Consulting Firm, generally bridging skills gap and capacity building in finance, business, accounting and IT solutions with emphasis on advanced technology and research for the business environment to bring the innovative solutions corresponding to issues in the fields of education ,Health ,business administration and etc.

ASA PROGRAM

ASA(Accounting Software Academy) is the fully hands on program we initiated to bridge the gap between classroom learning and labor market in the area of Accounting, Management and Finance to help students find their dream jobs or create their own with confidence and competence with “QuickBooks”. This guarantees the success and marketability of your Students and your institution.

PROBLEM WORTH SOLVING

Rwanda and the world in general is quickly adapting technology in all sectors of life. However, looking at the academic Curriculum, it does not move with the acceleration of update in variants and versions in the technology field. This shortcoming created a very big gap comparing acquired skills from classroom to the labor market requirements where graduates find themselves lost!

Give your career
A real boost

Vision

Increasing digital career readiness by developing 21st century skills through personal finance and entrepreneurship education.

Mission

- Creating new opportunities,
 - Revitalizing communities,
 - Expanding possibilities.
-

COMMUNITY IMPACT

In 10 years of operation, KURANGA DIGITAL Ltd together with our partners, have had a significant impact on the community and the country economic ,through which the major focus is to improve both Hands on skills Education , businesses & NGOs operations in the competitive digital finance tool “QuickBooks” through capacity building program (**ASA**) and consultancy . We improved the labor market fit skills for students, graduates and job seekers where more than 75% from “ASA” were linked with jobs. Our program increases students confidence ,helps their resumes stand out ,increases the value of Academics and provides also additional recruitment tool to Academics program.

CONCEPT IN BUSINESS

Why QuickBooks ?

QuickBooks is a professional accounting software combining all essential management features needed in business in a single intuitive tool such as Stock, Production, Payroll, VAT, Budget, Accounting and Financial Reporting. QuickBooks provides the best user-friendly interface making it easier to use without accounting skills only basing on usual business terminologies and is affordable in different versions and types.

Beneficiaries

ASA program intends to help both Schools and students to enhance practical learning skills in the field of accounting and finance and also to access in full all QuickBooks toolkits.
